ABDULRAHMAN EMAD FATHY

Software QA Engineer

Al Fayoum, Egypt | +20 112 699 8251 | abdulrahmanemadfathy@gmail.com | linkedin.com/in/abdulrahmanemadfathy

PROFESSIONAL SUMMARY

Detail-oriented QA Engineer with expertise in Manual Testing across Web and Mobile platforms, grounded in ISTQB Foundation Level concepts. Proficient in executing E2E test cases, defect management, and API validation. Expanding technical skills in SQL database testing and Java-based automation (Selenium) within Agile environments. Dedicated to delivering software quality through rigorous logic-based auditing and comprehensive test coverage.

PROFESSIONAL EXPERIENCE

Digital Egypt Pioneers Initiative (DEPI) | **Software QA Intern** — Egypt *Dec 2024 – Jan 2025*

Project: OpenCart E-Commerce QA Audit | GitHub

- Orchestrated a team of 4 as **Team Leader**, managing task delegation and ensuring full alignment with STLC milestones under tight deadlines.
- Spearheaded the automation phase solo, architecture a **BDD Framework (Selenium, Java, Cucumber)** with POM to secure critical regression coverage.
- Executed comprehensive Manual, **API (Postman)**, and **Database (SQL)** testing to audit back-end integrity and transaction logs.
- Synthesized high-impact bug reports and final **Test Summary Reports (TSR)** using **JIRA** to ensure zero-defect deployment readiness.

Vegetables E-Commerce Platform | **Manual Testing** — Independent Project *Mar 2025 – Mar 2025*

- Reviewed **SRS** documentation to design and execute **500+** manual test cases covering Web, Mobile, and Admin Panel interfaces using **Jira** and **Zephyr Scale**.
- Conducted functional and cross-platform testing across three application layers, ensuring consistent behavior and defect-free user flows.
- Documented and tracked all identified defects through full **bug life-cycle management**, achieving complete test coverage aligned with business requirements.

Social Entertainment App | **Freelance — Manual Testing** (1 Month) *Mar 2026 – Mar 2026*

- Designed and executed detailed manual test cases using **Excel**, covering core chat features and entertainment functionalities across multiple user scenarios.
- Delivered **50+ daily bug reports** across all severity levels, including critical defects, ensuring full client transparency and enabling rapid resolution before release.
- Contributed to a significant reduction in pre-release defects through systematic test coverage and structured **regression checks** across all major features.

SKILLS

- **Testing Methodologies:** Manual, Automation, API, Database, Regression, E2E, Smoke & Sanity, SDLC & STLC, Bug Life-cycle Management.
- **Tools & Frameworks:** Selenium WebDriver, TestNG, Cucumber (BDD), Postman, Jira, Zephyr Scale, SQL Server, Maven.
- **Languages & Tech:** Java, SQL, C++, Python, HTML/CSS.
- **Domains:** E-commerce, Fitness, Web & Mobile Apps.
- **Languages:** Arabic (Native) | English (Professional Working Proficiency).
- **Soft Skills:** Attention to Detail, Analytical Thinking, Client Communication, Team Collaboration, Time Management.

EDUCATION

B.Sc. Computer Science — AI Specialization *Sep 2024 – Jun 2028 (Expected)*

Beni Suef University | CGPA: 3.4 / 4.0
